

# Brick Mapping the Influence

In the space below, use a combination of small structures made from building bricks and drawings to create a map showing how a problem has negatively impacted your life. You may also wish to draw an X on your map where buried treasure lies, that represents the rewards you will experience when you are able to reduce the negative impact of the problem. Discuss your quest to overcome the problems on the map and how you can reach the treasure.

**The Problem:**
